Does Your Swiffer Wet Cloth Always Give Up Before You Do?

Product:

- **Swiffer Sweeper Wet Cloth Refills**
  (designed specifically for the Swiffer Sweeper Mop)

My Experience:

- Every time I mop the floor with my Swiffer Sweeper, I have to change the wet cloth 6–7 times because it **dries out** so quickly and covers only a **small area** per cloth. What should be a quick and convenient cleaning routine ends up feeling frustrating and wasteful.

Friction Chain

Dries Out
- Only cover a small area before drying out

→

Swap AGAIN and AGAIN
- Stop cleaning, bend down, and swap in another pad

→

Frustration + Waste
- Not Happy
- Used 10 pads for just a small area

The cloth keeps letting you down, but there's nothing wrong with your mop...

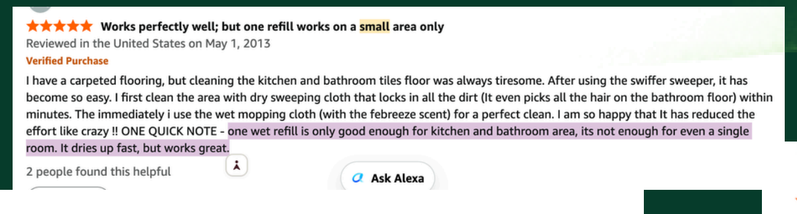

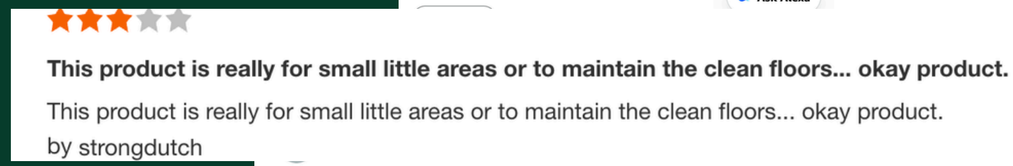

Thin

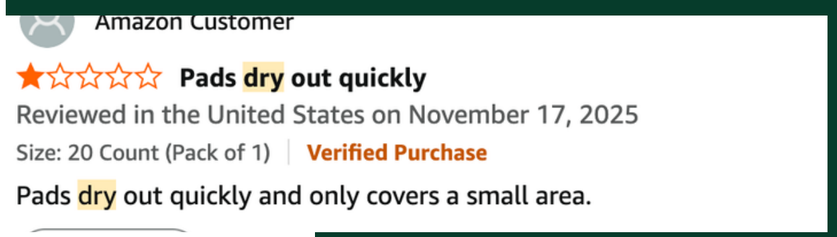

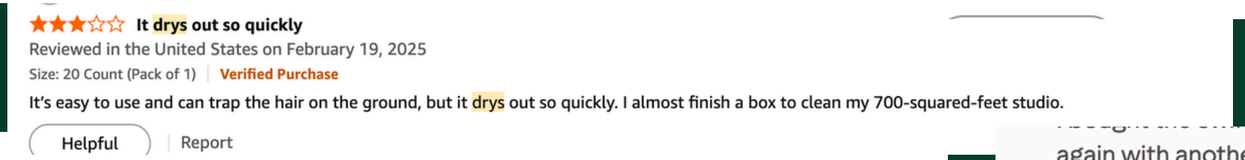

Looks Familiar?

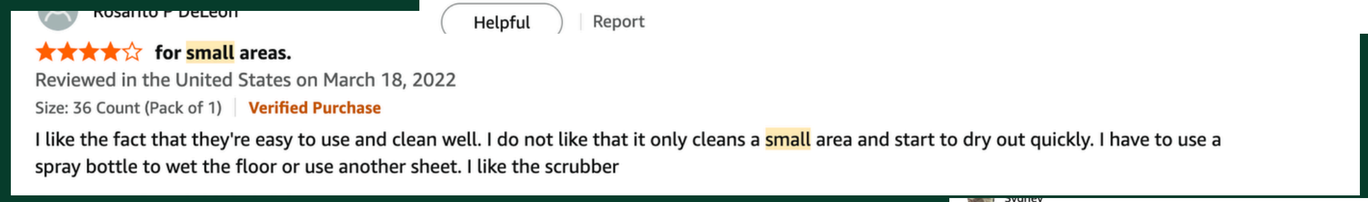

You are not Alone!

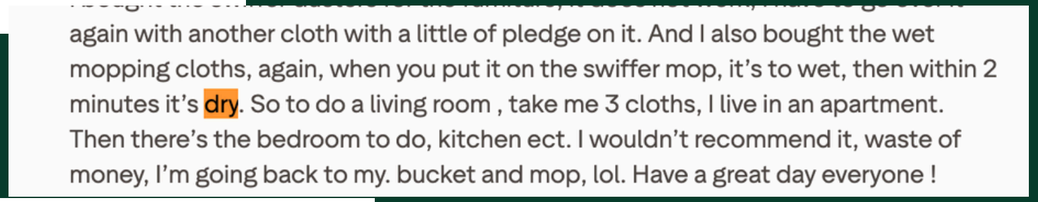

Works perfectly well; but one refill works on a small area only

I have a carpeted flooring, but cleaning the kitchen and bathroom tiles floor was always tiresome. After using the swiffer sweeper, it has become so easy. I first clean the area with dry sweeping cloth that locks in all the dirt (It even picks all the hair on the bathroom floor) within minutes. The immediately i use the wet mopping cloth (with the febreeze scent) for a perfect clean. I am so happy that It has reduced the effort like crazy !! ONE QUICK NOTE - one wet refill is only good enough for kitchen and bathroom area, its not enough for even a single room. It dries up fast, but works great.

Pads dry out quickly and only covers a small area.

It drys out so quickly

It's easy to use and can trap the hair on the ground, but it drys out so quickly. I almost finish a box to clean my 700-squared-feet studio.

I like the fact that they're easy to use and clean well. I do not like that it only cleans a small area and start to dry out quickly. I have to use a spray bottle to wet the floor or use another sheet. I like the scrubber

again with another cloth with a little of pledge on it. And I also bought the wet mopping cloths, again, when you put it on the swiffer mop, it's to wet, then within 2 minutes it's dry. So to do a living room , take me 3 cloths, I live in an apartment. Then there's the bedroom to do, kitchen ect. I wouldn't recommend it, waste of money, I'm going back to my. bucket and mop, lol. Have a great day everyone !

Not for large spaces

These are fanastic. They smell great and make the area feel clean, but one pad doesn't work for large spaces (laundry room + kitchen). It gets dry from picking up all the debris. I also have 3 pets, I think it would not have the issue if I didn't have all that hair. The hair definitely makes it difficult. Overall, I'd still choose swiffer and this product, regrettably, I'd just have to use more than one wipe.

Think You’re saving by putting up with it

MOP & GO MAX

$14.99 / 12 clothes

$1.25

cost per cleaning session

Every Time you Mop

~ $ 5.00

~10-12 pieces of cloths

2 mopping session per week

~ $ 520.00

cost per year

Physical Effort

Repeated bending to change cloths

Time

More stops, longer cleaning time

Frustration

Frequent interruption leads to bad mood

You are not just spending money; You are also spending time, effort, and peace!

We see that you can not find any reasonable solutions

All current alternative solutions ask you to replace the whole mopping system

Spin Mop + Bucket

New equipment

Robotic Vacuum

Pricey + New system

Swiffer WetJet

New sets

Swiffer PowerMap

New sets

Your mop still works, TOSS it away and spend extra money to purchase an entirely new set seems unreasoanble.

We made it EASY for you!

- You already have the mop
- you need to purchase the refill anyway
- Now you can get more out of every cloth

Next Time When You Restock, Make It

MAX.
